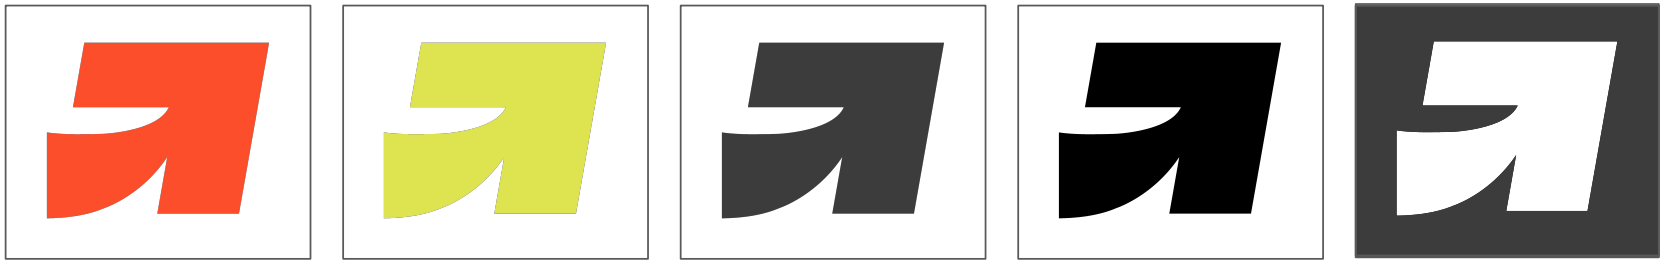
The GritFuel Arrow

The arrow symbolizes focused motion and measurable progress. Use it sparingly as a directional cue or secondary graphic device — never as a replacement for the logotype.



Usage guidelines:

- 20–40% opacity when used as a background graphic.
- Align horizontally or at 45°; keep orientation consistent.
- Do not repeat as a pattern, distort, or pair directly with the logotype.
- Use only in approved brand colours: Orange, Lime, Charcoal, White, Black.
